

Harshaa my BestOne

[Verse]

Harsha my bestie oh so true
Got this love with every hue
Laughing with you every day
In our world we're here to stay

[Verse 2]

Her smile brightens up the room
Fills my heart oh blooms in bloom
Funny moments she creates
In this bond we call it fate

[Chorus]

Harsha she
Her everything
Together we both take wing
In our laughter love we find
Bestie bond one of a kind

[Verse 3]

Through the highs and through the lows
Every secret Harsha knows
From the sunrise to the night
With her everything's alright

[Verse 4]

Dumb but funny oh so sweet
She makes every moment neat
Silly jokes and heartfelt chats
Memories in laughter's stats

[Bridge]

In her eyes purest delight
Shining like the stars so bright
Friends forever we will be
Harsha means the world to me
